# TESTIMONIALS

## POLAND, HELICOPTER EMERGENCY MEDICAL SERVICE

To enable 24-hour operations of its seasonal helipad base, Polish HEMS decided to install helipad lighting. As a result of public tender, S4GA helipad lighting has been selected as the best solution for current application.

”

*The lighting is visible from the distance of 4 miles. An additional value is their mobility and possibility of being installed in any location.*

**BARTLOMIEJ FLORCZAK,  
HEAD OF THE AIR OPERATIONS DEPARTMENT**

”

## AZERBAIJAN, BORDER GUARD AND AIR FORCES

S4GA portable helipad lights have been successfully tested and approved by The State of Border Guard and Air Defense Force for usage by national armed forces. Results of testing of visibility range:

7 km – for visible LED mode at minimum (10%) and maximum (100%) light intensity\*

2 km - for infrared (NVG) mode at minimum (10%) light intensity

2,6 km – for infrared (NVG) mode at maximum (100%) light intensity

\* Limitations: 7 km was a maximum distance allowed for piloting helicopter at night time.

## SOUTH AFRICAN POLICE SERVICES

”

*The landing lights are easy to install and operate for both fixed and wing helicopter landing zones, and require virtually no maintenance.*

**LIEUTENANT COLONEL,  
SUPPORT HEAD: SECTION AIR WING, HCC STRUWIG**

”

# TESTIMONIALS

## EASTERN EUROPE, MILITARY HELIPAD

The lights have been using by pilots for flight training operations at night time and during the day in low visibility conditions.

”

*We have been using S4GA portable helipad lights for over a year. During this time, the lights showed high performance and resistance to weather conditions.*

*We are very satisfied with S4GA portable helipad lights. We also wish to recommend S4GA as a reliable manufacturer and supplier of portable helipad lighting*

”

## POLAND, AIR FORCES

S4GA portable helicopter landing zone lights have been using to secure night operations during Anaconda military exercises performed by NATO in Poland.

# FOR PRIVATE HELIPADS

# TESTIMONIALS

## BELGIUM, HELIVENTURE

Heliventure supported night operations at Tomorrowland Music Festival. The Customer required helipad lights immediately. S4GA has provided operator with its premium helipad lighting solution.

## MYANMAR, HELI-UNION

”

*System is utilized on our helipad located on remote areas in order to maintain 24/7 transport operations to and from off-shore oil drilling platforms. Our pilots are satisfied with the visibility range provided by the lighting system. S4GA helipad lighting is easy to install, operate and requires almost no maintenance.*

**JONATHAN COSSON, TECHNICAL DIRECTOR**

”

## DENMARK, VIP AIR CHARTER OPERATOR

**APPROVED BY DANISH CAA**

S4GA lighting is the only portable helipad lighting that has been certified by Danish Transport Authority and is currently in use by Danish company that operates fleet of business helicopters.

## LITHUANIA, AEROCLUB

**APPROVED BY LITHUANIAN CAA**

Portable helipad lights have been installed at Lithuanian aeroclub to illuminate helipad during winter seasons. The lights have been approved by Lithuanian Civil Aviation Authority and are using by both civil and military pilots.

## UKRAINE, PRIVATE HELIPAD

The customer requested for high-quality ICAO compliant helipad lights to secure occasional night operations. S4GA lights have been selected as premium solution for helipads available on the market.
