

# Mounting Stake L-895

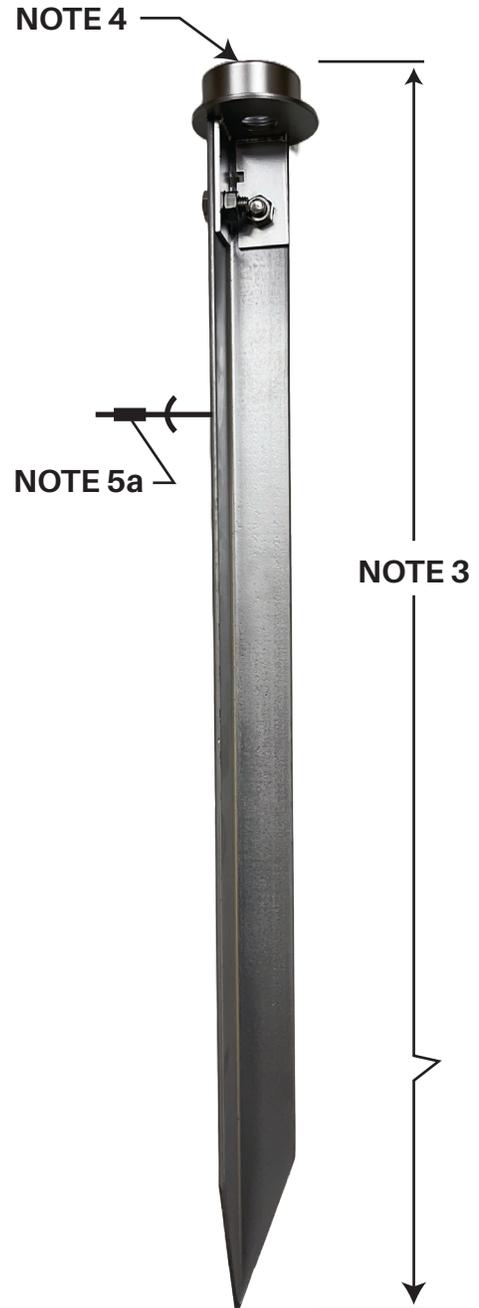

## ANS L-895 Airfield Light Mounting Stakes

Manufactured by Approach Navigation Systems (ANS), our L-895 airfield light mounting stakes are designed for secure and reliable installation of airfield LED lights. Constructed from durable galvanized steel and featuring a 2" NPT mounting hub, these stakes are built to withstand harsh airfield environments. Available in various sizes, ANS mounting stakes offer versatile, high-quality solutions for airfield lighting infrastructure.
